

SONOMOS, INC.

Acceptable Use Policy

Last Updated: February 22, 2026

Overview

This Acceptable Use Policy (“Policy”) is part of our Terms of Service (“Terms”) and should be read alongside our main Terms at sonomos.ai/terms. Capitalized terms used but not defined in this Policy have the meanings given to them in our Terms.

When you use the Services provided by **Sonomos, Inc., a Delaware corporation with its principal place of business at 9924 Kika Court #2416, San Diego, CA 92129, United States** (“Company,” “we,” “us,” or “our”), you agree to comply with this Policy, our Terms, our Privacy Policy, and all applicable laws. If you do not agree, you must not use the Services.

We may update this Policy from time to time. Material changes will be communicated in accordance with the notice provisions in our Terms. Your continued use of the Services after any changes take effect constitutes acceptance of the revised Policy.

1. General Conduct

You agree to use the Services only for their intended purpose: to help you identify, manage, and protect sensitive information when interacting with AI tools and online services. You will use the Services in a lawful, ethical, and responsible manner that respects the rights and privacy of all individuals.

2. Prohibited Uses

You may not use the Services to:

2.1 Violate Laws or Regulations

- (a) Engage in any activity that violates applicable federal, state, local, or international law or regulation.
- (b) Facilitate the concealment, destruction, or alteration of information in violation of legal discovery obligations, court orders, regulatory requirements, or reporting obligations. This includes, but is not limited to, using the Extension’s masking features to hide information that you are legally required to disclose or preserve.
- (c) Circumvent anti-money laundering, know-your-customer, sanctions, or other financial compliance requirements.
- (d) Process, transmit, or store information in violation of any applicable data protection or privacy law.

2.2 Abuse the Platform

- (a) Systematically retrieve data or content from the Services to create or compile a collection, database, or directory without our prior written permission.

- (b) Circumvent, disable, or interfere with security, authentication, license management, or rate-limiting features of the Services.
- (c) Interfere with, disrupt, or create an undue burden on the Services or connected networks and infrastructure.
- (d) Attempt to bypass any technical measures designed to prevent or restrict access to the Services.
- (e) Use automated means — including scripts, bots, scrapers, spiders, robots, or similar tools — to interact with, access, or extract data from the Services, except as may result from standard browser usage.
- (f) Upload or transmit viruses, Trojan horses, worms, or other malicious code that interferes with or compromises the Services.
- (g) Upload or transmit any material that acts as a passive or active information collection or transmission mechanism, including web beacons, pixels, cookies, or similar tracking technologies.
- (h) Engage in unauthorized framing of or linking to the Services.

2.3 Misuse Accounts and Credentials

- (a) Create accounts by automated means or under false pretenses.
- (b) Attempt to impersonate another user, person, or entity.
- (c) Share, sell, or transfer your account, login credentials, or subscription access to any unauthorized person.
- (d) Collect usernames, email addresses, or other user information for the purpose of sending unsolicited communications.
- (e) Attempt to learn sensitive account information such as other users' passwords.

2.4 Infringe Intellectual Property

- (a) Copy, modify, adapt, reproduce, distribute, or create derivative works based on the Services, the Extension, or any Content, except as expressly authorized by our Terms.
- (b) Decipher, decompile, disassemble, or reverse engineer any software comprising any part of the Services, except to the extent expressly permitted by applicable law notwithstanding a contractual restriction.
- (c) Remove, alter, obscure, or deface any copyright, trademark, or other proprietary rights notice from any Content or the Services.

2.5 Harm Users, Employees, or Third Parties

- (a) Harass, abuse, threaten, intimidate, stalk, or harm any person, including our employees, agents, or other users.
- (b) Use information obtained from the Services to harass, abuse, or harm another person.
- (c) Submit false reports of abuse, misconduct, or security vulnerabilities.
- (d) Disparage, tarnish, or otherwise harm the reputation of the Company, the Services, or other users.

2.6 Engage in Unauthorized Commercial Activity

- (a) Use the Services for competitive analysis, benchmarking, or developing a competing product or service.
- (b) Use the Services or any Content for any revenue-generating endeavor or commercial enterprise not specifically endorsed or approved by us.
- (c) Use the Services to advertise or offer to sell goods and services not authorized by us.
- (d) Share, distribute, sublicense, or otherwise make the Extension or any local processing components available to unauthorized third parties.

3. Subscription-Specific Restrictions

If you subscribe to a paid tier of the Services, you additionally agree that you will not:

- (a) Use, copy, redistribute, publish, display, or retransmit any portion of the Services beyond the scope of your subscription without our prior written consent.
- (b) Provide or make available your subscription access to any third party not authorized under your subscription plan or Order Form.
- (c) Intercept, access, or attempt to access any data not intended for you.
- (d) Damage, reveal, alter, or interfere with any other user's data, account, or information.
- (e) Use the Services to circumvent safeguards, rate limits, or technical protections beyond the scope of your authorized use.
- (f) Exceed the number of authorized users, devices, or installations permitted by your subscription plan or Order Form.

4. Use of the Extension's Privacy Features

The Extension, including Dagger (detection) and Cloak (masking), is designed to help you protect sensitive information before you share it with third-party services. You acknowledge and agree that:

- (a) **You are responsible for your decisions.** The Extension provides detection alerts and masking tools to assist your judgment. It does not make legal, compliance, or security decisions for you. You remain solely responsible for determining what information to share, mask, or withhold.
- (b) **The Extension is not a compliance solution by itself.** The Extension may be used as one component of a broader compliance and security program, but it does not guarantee compliance with any law, regulation, or industry standard.
- (c) **You may not use the Extension to evade legal obligations.** You may not use Cloak or any other masking feature to conceal, destroy, or alter information that you are legally required to disclose, preserve, or produce — including in response to litigation holds, subpoenas, regulatory inquiries, discovery requests, audit requirements, or similar obligations.
- (d) **You may not use the Extension to facilitate fraud.** You may not use detection or masking features to deceive counterparties, obscure material information in transactions, or otherwise facilitate fraudulent or deceptive conduct.

(e) Detection results are not guaranteed. Dagger uses pattern matching and on-device machine learning to identify potentially sensitive data. It may produce false positives (flagging non-sensitive data) or false negatives (missing sensitive data). You should not rely solely on Dagger to identify all sensitive information in your inputs.

(f) Local processing is not absolute security. While the Extension processes data locally on your device, local processing does not protect against threats to your device itself, such as malware, keyloggers, unauthorized physical access, or compromised browser environments.

5. Reporting Violations

If you become aware of any violation of this Policy, please report it to us:

Email: info@sonomos.ai

Online: sonomos.ai/contact

We encourage responsible reporting and will not retaliate against anyone who reports a violation in good faith.

6. Consequences of Violations

We take violations of this Policy seriously. The consequences will depend on the nature and severity of the violation, your history with the Services, and any applicable legal requirements.

6.1 We may take one or more of the following actions in response to a violation:

(a) Warning. We may issue a formal notice describing the violation and requiring you to cease the prohibited conduct immediately.

(b) Suspension. We may temporarily suspend your access to all or part of the Services while we investigate the violation.

(c) Termination. We may permanently terminate your account and access to the Services. Termination under this section constitutes termination for cause under our Terms, and no refund of prepaid fees will be provided.

(d) Legal Action. We may pursue legal remedies, including injunctive relief, damages, and reporting of the violation to law enforcement or regulatory authorities, where we believe there is a genuine risk to any individual, the Company, other users, or public safety.

6.2 We are not obligated to provide advance notice before taking action under this section, except where required by applicable law.

6.3 We exclude our liability for any actions we take in good faith in response to violations of this Policy, to the maximum extent permitted by applicable law.

7. Relationship to Other Policies

This Policy supplements, and does not replace, our Terms of Service, End-User License Agreement, and Privacy Policy. In the event of any conflict between this Policy and our Terms, the Terms shall control unless this Policy expressly states otherwise.
